PROFILE SUMMARY

With over 3+ years of experience in Node.js development, I am confident that I have the skills and expertise necessary to excel in this role. Throughout my career, I have worked on a variety of projects, ranging from small-scale applications to large-scale enterprise solutions. I am well-versed in Node.js and have a deep understanding of its core principles and concepts. I have also worked extensively with various Node.js frameworks such as Express.js, and I am comfortable using databases such as MongoDB and MySQL. In addition to my technical skills, I am a highly motivated and detail-oriented developer who is passionate about delivering high-quality software. I thrive in collaborative environments and am comfortable working closely with other developers, project managers, and stakeholders to ensure that projects are completed on time and to the highest possible standard.

AREAS OF EXPERTISE

CORE COMPETENCIES

- Software/Web Development | • Software Design/Testing | • Test Automation | • Technical Research | • Quality Assurance | • Systems Engineering | • Performance Improvement |

SKILLS HIGHLIGHTS

In developing databases, creating user interfaces, writing and testing codes, and troubleshooting complex issues. Highly competent communicator skilled in developing initiatives that improve company profitability and growth. Technical Skills: JavaScript (Node JS), Express JS, Socket.io, Linux, Windows, window server, penetration testing. MongoDB, Firebase, MySQL - Version Control: Git, GitHub, Postman, curl, Heroku. Talented and adept at multitasking in a challenging environment to provide effective support for cross-functional teams.

PROFESSIONAL EXPERIENCE

Software Developer Intern

NANOTECHX – <https://nanotechx.org/>
Aug 2022 - Present
